Introducing Electriflex™ Gloves

Now Available with RFID

The way you work is about to change for good.

Real-time visibility
on workers' readiness
for safe work never
sounded or felt so good.

American Ingenuity at Work

Using the highest quality materials and small batch precision, our engineers invented a new flex formula you can put to work today.

Electriflex™ Gloves with RFID are here.

Real-time accurate safety intelligence to create
a safer and more productive enterprise.

- Between people and compliance.
- Between the right equipment and the right job.
- Better connections.
- Between the data you receive and the decisions you make.

More dexterity, More freedom, to get **More** done

You said you wanted more from your work gloves. Increased flexibility, extra comfort—yet engineered with the same superior quality and exacting standards you've come to expect from Salisbury.

We listened.

Introducing Electriflex™, **the most flexible rubber insulating glove** we've ever made. Designed to give linemen the ultimate in comfort and control, these gloves minimize hand fatigue and maximize performance—all while giving you the protection you need. With greater flexibility and dexterity, you can optimize every part of your workday and take on tasks with less stress and strain.

Flex technology isn't just about enhancing your productivity. It's also about making sure you return home safely today and continue to lead an active, comfortable life doing the things you enjoy tomorrow.

Are you ready to take hold of the biggest advancement in glove technology in the last 50 years?

Connected Worker

Optional RFID Technology allows for easy and efficient asset tracking using Honeywell software solutions.

Newly perfected leather protectors

- To help amplify the flexibility of the Electriflex™ Gloves, we redesigned our leather protectors
- Clute design for a more customized fit with Electriflex™
- Crafted with premium grade leather
- Durable cowhide cuff for tough working conditions
- Goatskin hand protection ensures comfort, flexibility and better dexterity
